DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Eller.

Eller discloses a foldable label base **14** for displaying labels (i.e., “descriptive terms”).

The label base is configured to be unfolded into a first position and folded into a second position. The labels are viewable in the first position and at least some of them are concealed from view in the second position. The recitation that the labels are “for a portable computing device” is merely a statement of intended use and has not been given patentable weight.

Regarding claims 2 and 12, see Fig. 6.

Regarding claims 3, 4, 13 and 14, it has been held that patentable novelty cannot be principally predicated on mere printed matter and arrangements thereof, but must reside basically in physical structure. *In re Montgomery*, 102 USPQ 248. Therefore, recitations directed toward the information intended to be printed, rather than on the structure of the label itself, have not been given patentable weight.

Regarding claims 5 and 15, the label system disclosed by Eller is intended to be non-removable. See column 3, lines 30-36.

Regarding claims 7 and 17, the label base disclosed by Eller folds into a recess. See Fig.

- 1.

Art Unit: 3611

Regarding claims 9, 10, 19 and 20, the label display system disclosed by Eller includes a display cover. See Fig. 1.

Allowable Subject Matter

3. Claims 21-38 are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary C Hoge whose telephone number is (703) 308-3422. The examiner can normally be reached on 5-4-9.
